Passion Fruit Vine	Purple	<i>Passiflora edulis</i>	South America	6												

**About Our Fruit Orchard**

Please do not pick fruit unless your family is enrolled at our school, fruit theft will be referred to Lee County Sherriff's Office.

Our students learn about where food comes from, plant anatomy, how to prepare each fruit to eat, and of course how they taste!

Our small orchard was started in March 2015 with 3-5 year old fruit trees locally grown in Pine Island, FL.
